## AN AFFLICTED FAMILY.

With Daughter Dead, the Mother is Seriously Injured in a Runaway.

SPECIAL CORRESPONDENCE.  
MORGANTOWN, W. Va., Feb. 7.—Yesterday afternoon a terrible accident occurred, which for a time threatened to result fatally. Miss Lula Garlow's remains have been lying here since Thursday, who has been on his cattle ranch in Colorado. Mrs. Garlow has been prostrated ever since the death occurred, and the doctor advised that she be driven out for the benefit of the air. Accordingly J. Ewing Davis, a prominent attorney, of Chicago, and a former professor of the university, took her out. They drove to the cemetery and selected a lot for the burial of Miss Garlow. This duty performed they drove some distance further up the road. On turning in a narrow place the carriage caught a gas pipe and broke it. The escaping gas frightened the horses and a runaway resulted. The carriage struck several telephone poles and finally struck one squarely, being completely demolished and throwing the occupants out against a fence. Mr. Davis sustained several very bad bruises and cuts and was terribly shaken up.

Mrs. Garlow's shoulder was broken, a bad cut on the head, and it was at first thought, that she had been injured internally. It was some time before she regained consciousness. She is now resting easier and it is thought that she will recover. The funeral of Miss Garlow occurred this afternoon and was a notable one. She was a graduate of Beaver college, Pa., West Virginia University and would have graduated at Bryn Mawr in June, taking Ph. D. She was living in one room and her mother in an adjoining one too ill to move. The family is very wealthy and prominent, and the calamities which have so suddenly befallen them is causing great sorrow.

HUNDREDS of precious little ones owe their lives to Dr. Thomas' Electric Oil, the sovereign cure for croup and all other throat or lung diseases. 1.

## FINANCE AND TRADE.

The Features of the Money and Stock Markets.

NEW YORK, Feb. 8.—Money on call easy at 1 1/2 per cent. Best loan 1 1/2 per cent; closed offered at 1 1/2 per cent. Prime mercantile paper 3/4 per cent. Sterling exchange steady with actual business in bankers' bills at \$4 85/16 @ 4 85/16 for demand and \$4 8 1/2 @ 4 8 1/2 for 60 days; posted rates \$4 85 and \$4 8 1/2 for 90 days; commercial bills \$4 8 1/2. Silver certificates 6 1/2 @ 6 3/4. Bar silver 64 1/2.

The overhanging proportions of the transactions on the stock exchange today were in the industrial stocks with Sugar far in the lead in point of activity. Many factors combined to depress this group of stocks, and the narrow limits of transactions in the general list made it easily subject to the depressing influence of the leaders with the consequence that the course of the market was sharply downward during the day, with a marked rally towards the close. The situation in the industrial continued much the same as for some time past, all being depressed by the proceedings in this city of the legislative committee, which is now investigating the sugar company, with a further investigation of other companies still in prospect. Sugar, as being immediately the subject of investigation and as being open to other unfavorable conditions, was in the van of the downward movement, which began with the opening and after a period of apathy continued in a manner resembling party polarization. There was evidence of quite a heavy liquidation in this stock. The whole market became a victim of this movement, the industrial in marked degree and the general list fractionally. There was a notable lack of support for the yielding market and the decline was practically unopposed. The decline in the price of sugar in our movement was 2 1/2 c. Leather preferred yielded 1 1/2. Tobacco 1 1/2. Chicago Gas 1 and Illinois Steel 1 per cent. In the railway list Rock Island fell off 1 1/2. Northern Pacific 1, Northern Pacific preferred 1 1/2 and Delaware and Hudson 1 per cent. Some influence was also caused on the market by an unfounded rumor that Admiral Bance's squadron of United States warships had been ordered to Havana to enforce the release of American prisoners there. There was also some depression reflected from London and Europe over the friction between the British and French governments over Egypt. But the decisive factor in the market was the Lexow trust investigation committee and the day's proceedings before it. This was shown by the rally which occurred in the market upon the announcement that this committee had adjourned over until Saturday. Tobacco, however, benefited only 1/4 per cent on account of the belief that it will be the subject of investigation to be taken up by the investigating committee. The dealings in other shares were without special significance, the course of prices being almost wholly in sympathy with the industrial. The trading was somewhat unsettled after the rally, but the closing was firm. London sold at the outset, but later turned buyer. The British market was somewhat firmer than it had been in to-day and sold at 12 1/2 @ 12 3/4.

The bond market was fairly firm. Government bonds strong. The Evening Post's London financial cablegram:

There were heavy and depressed markets to-day, owing to political complications. They closed with a loss. Nothing is doing. There was some bear selling because easy money remains a factor. Americans were weak, closing at the lowest. Japan bought 100,000 in gold. The Paris and Berlin markets were weak.
